5. WHAT IS YOUR STRATEGIC PLAN TO GROW THE CHURCH BOTH SPIRITUALLY AND NUMERICALLY?

What new programs, within the church and with outreach, are you using to facilitate spiritual and numerical growth? If your current programs are not working, get another program.

We must retain our faith that we can prevail to grow, both spiritually and numerically, while retaining the discipline to confront the facts of our current realities. Growth is not a function of circumstance. Growth is largely a matter of faithfulness, discipline, hard work, and conscious choice. With God's help let us create a climate of growth. Let us all become a walking, talking Welcome Packet to the churches of this our Ann Arbor District.
